

**THANK YOU!**

Your generous donation helps pursue solutions to every issue facing families living with MS: college scholarships and a summer camp for the children of those with MS, grants to support wellness programs or fitness classes, assistance with the high cost of prescriptions, counseling and support groups, help to buy a wheelchair or weather a financial crisis, and much more – all free of charge.

Your contribution also helps fund our research efforts. The National MS Society is a driving force of MS research, supporting and stimulating world-class research into ways to prevent, better treat and cure this unpredictable disease of the brain and spinal cord.

Received from:
